BIM: THE FUTURE OF CONSTRUCTION

OUR MISSION:

- To revolutionize the construction industry through the integration of BIM into companies and projects
- To support professionals in achieving greater efficiency, sustainability, and customer value

SERVICES & BENEFITS:

- Cross-industry consulting and project support using Building Information Modeling (BIM)
- Cost savings and improved collaboration
- Greater precision and early error detection during the construction process
- Optimized building maintenance

WHY BIM? ADVANTAGES OF BIM

IDENTIFYING OPPORTUNITIES FOR OPTIMISATION THROUGH BIM

The construction industry is hardly digitized. Modern methods enable the early detection of planning errors, thereby minimizing costs and delays. Efficient interface management ensures that projects run smoothly.

DIGITAL TRANSFORMATION THROUGH THE HOLISTIC INTEGRATION OF BUILDING DATA, IN LINE WITH THE BIM METHOD

Our method ensures planning reliability, efficient collaboration, and cost transparency throughout the entire project.

WHO NEEDS BIM?

We support building owners, design firms, construction companies, and property management companies on their individual BIM journeys.

BIM-COMPANY CONSULTING

We offer comprehensive consultancy services in the construction and property sectors, with a focus on the implementation and optimisation of BIM processes. We support our clients with digital planning and implementation of construction projects, enabling us to improve efficiency, reduce costs and achieve high-quality results.
